

Seamless Connectivity for Modern Business

Redefine communication with iPECS Cloud by Your Comms Group.

01

Flexible Communication, Wherever You Are.

iPECS Cloud redefines business communication, making it simple, flexible, and accessible from anywhere.

Designed to keep your team connected no matter where they work, iPECS Cloud enables seamless collaboration and productivity across all devices. By shifting your phone system to the cloud, we eliminate hardware limitations, giving you a scalable solution that grows with your business.

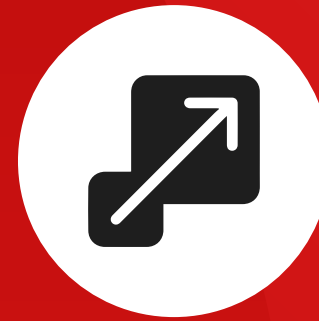

Why Choose iPECS Cloud?

Productivity:

Centralise your communication tools to reduce distractions and boost team focus and efficiency.

Scalability:

Expand without boundaries. Easily add users or features as your team grows.

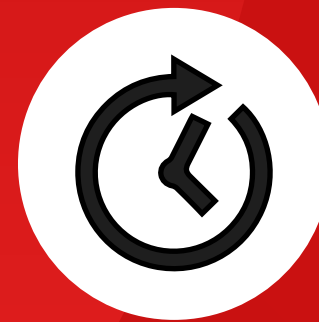

Security:

Hosted in resilient UK data centres, ensuring reliable, robust data protection and smooth operations.

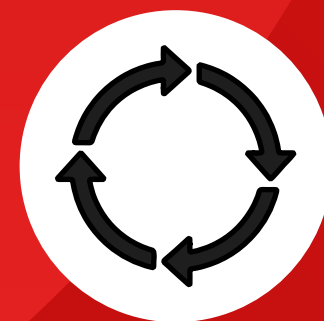

Availability:

Maintain connectivity across all devices so you're always there when it matters most.

Future-Proof:

Prepare for tomorrow with an internet-based solution ready for the UK's 2025 switch-off.

Adaptability:

Tailor iPECS Cloud to meet your unique business needs, making it a true extension of your operations.

Stay Productive, Scale Seamlessly, and Be Secure.

iPECS Cloud is built for productivity, flexibility, and peace of mind. With a single, centralised platform, your team can access voice, video, and messaging tools that streamline daily workflows.

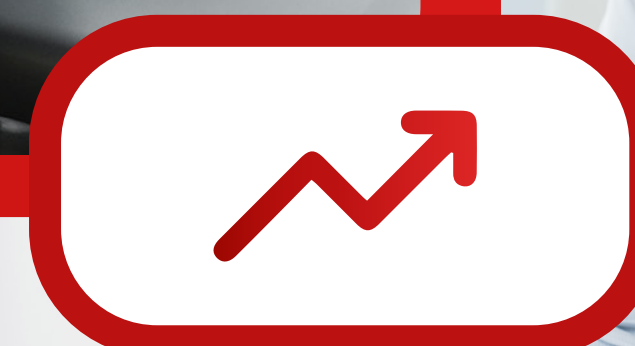

As you grow, iPECS Cloud scales effortlessly—add new users or entire sites without hassle. And with advanced, UK-hosted security, you can trust iPECS Cloud to safeguard your business data and communications

Available, Future-Ready, and Adaptable.

Be there for your customers whenever they need you. iPECS Cloud gives you full control of your communication channels, ensuring seamless connectivity across all devices.

With the UK's 2025 phone line switch-off on the horizon, iPECS Cloud is ready for the future, keeping your business one step ahead. Plus, with various applications and integrations, iPECS Cloud adapts to your unique needs, making it the most versatile communication solution available.

Seamless Enhancements and Integrations.

Enhance productivity by integrating iPECS Cloud with essential tools like Microsoft Teams and popular CRM platforms.

With seamless integration, your team can manage tasks, handle calls, and log customer interactions all in one place. iPECS Cloud is designed to fit effortlessly into your existing workflow, ensuring your team has everything they need to work smarter, faster, and more effectively.

Advanced Tools for Efficiency and Engagement.

Empower your team with advanced tools that keep you connected, engaged, and efficient. iPECS Cloud offers AI-powered insights, like call transcriptions and customer sentiment analysis, making every interaction smarter and easier to manage.

Remote and mobile work capabilities ensure your team can collaborate from anywhere. At the same time, omnichannel customer engagement tools, like SMS, WhatsApp, and web chat, enable you to meet your customers on their preferred platform—all within iPECS Cloud.

Your Technology, Your Way.

With Your Comms Group and iPECS Cloud, experience communication that adapts to your needs, empowers your team, and future-proofs your business. Discover how iPECS Cloud can transform the way you work.
